A Report Career Guidance Session on "How to prepare for Microsoft Internship" by M. Rahul Reddy on Oct 31st ,2012

A career guidance session on " how to prepare for Microsoft Internship program" was delivered by   Mr. M. Rahul Reddy, alumnus of 2012 pass out batch for the students of BE 3/4 CSE on Oct 31st , 2012.

The Objective of the session was to motivate the students on the various ways of preparing to face an interview panel for the internship program offered by Microsoft India Pvt Ltd. The speaker could stress on the written test and the common mistakes students do while presenting them self during the interview.

He iterated on the various aspects, like Passion towards technology, out of the box thinking, analytical & problem solving skills, interactive behavior etc, required for any undergraduate to be a part of any product based company and is normally tested through the first few rounds of the interview.

Mr. Rahul Reddy moved on sharing his working experience at Microsoft right from the day of joining Microsoft ,Hyderabad. He was happy to share that Microsoft has given an opportunity for him to attend the annual international conference held at Toronto before he could join Microsoft. He

also insisted on the employee satisfaction while reiterating the work life.

He also shared that people at Microsoft are too kind that they never hesitate to give inputs to the queries asked by the any one at Microsoft, Hyderabad.

Mr. Rahul Reddy concluded the session by advising the students to experiment with the basics of C ,C++, data structures concepts and write simple algorithms in any language of their interest to understand the in depths of how they work.

The session was proven to be very encouraging & interactive as expressed by students of 3/4 CSE A & B.
